## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-31 are rejected under 35 U.S.C 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1,13,14,21: Claims lack storage on a medium which enables any underlying functionality to occur. For such claims to be statutory they must be embodied within a tangible computer medium such as hard drives or some other computer hardware form. Claims 2-12,15-20,22-31 depend from claims 1,13,14,21 and therefore are rejected under the same rationale.

### ***Response to Amendment***

The previous grounds of rejection under 35 U.S.C. 112, second paragraph is withdrawn in view of Applicant's Amendment filed 7/10/08. However, Examiner has discovered new grounds of rejection during the examination. See new rejection above.
